This report outlines the business model, financial projections, and calculated Return on Investment (ROI) for CodeLearn, a B2C Marketplace / Platform-as-a-Service specializing in programming education.

Exchange Rate & Conversion

For this report, the conversion rate used is **\$1 USD = ৳122.32 BDT**.

Business Overview and Strategy

Key Metric	Detail
Business Name	CodeLearn
Business Type	B2C Marketplace / Platform-as-a-Service
Target Market	Programming students, tech teachers, educational institutions
Target Addressable Market	50 Crore - 100 Crore (BDT)

Revenue Streams

Model	Description	Example / Rate
Commission-Based	CodeLearn takes 15-20% from each completed session	If teacher charges ₳5,000 → CodeLearn earns ₳750-₳1,000
Subscription Plans	Monthly subscriptions for teachers & students	Teacher Premium: ₳500/month; Student Premium: ₳300/month
Featured Listings	Premium placement for teachers	₳2,000/month per teacher in "Top Teachers" section

Market Analysis

Factor	Details
Programming Students	200,000+ in Bangladesh
Tech Teachers	5,000+ potential instructors
Institutions (B2B)	Coding academies, universities
EdTech Market (BD)	~₳1,000 crore (2025 est.)
Tech Training Segment	~₳150 crore
Target Addressable Market	₳50-100 crore

Financial Projection (5 Years)

Year	Active Teachers	Active Students	Revenue (₹)	Operating Cost (₹)	Net Profit (₹)
Year 1 (Startup)	200	2,000	17,000,000	12,000,000	5,000,000
Year 2 (Growth)	500	8,000	84,000,000	35,000,000	49,000,000
Year 3 (Expansion)	1,200	25,000	298,500,000	120,000,000	178,500,000
Year 4 (Scale-Up)	2,000+	60,000+	650,000,000	250,000,000	400,000,000
Year 5 (Maturity)	3,000+	120,000+	1,200,000,000	450,000,000	750,000,000

Initial Investment Breakdown

Category	Amount (₹)
Development & Infrastructure	15,950,000
Marketing & Launch	5,000,000
Working Capital	10,000,000
Total Initial Investment	30,950,000

ROI(Return on Investment) & NPV(Net Present Value) Summary

Metric	Value (ট)
Total Net Profit (5 Years)	1,367,500,000
Initial Investment	30,950,000
ROI	≈ 4,318%
Payback Period	~18 months
NPV (10% discount rate)	ট904,536,691

Competitive Advantages

Advantage	Description
Localized Focus	Designed for Bangladeshi learners and teachers
Specialized Niche	Focused solely on coding and tech education
Real-Time Chat & Booking	Built-in communication and scheduling
Secure Payment System	Supports bKash, Nagad, and cards
Teacher Quality Control	Verified teachers and reviews
Modern UI/UX	Smooth and intuitive user experience
